Improving Sanitation in Uganda
The Program:

- Educating 9000+ children on hand-washing
- Installing a hand-washing unit in 10 schools
- Upgrading the toilet blocks of 10 schools
Basic Toilet Upgrade

We installed these “flappers” which form a pressurised seal over the pit.

How it looks installed:
The Handwashing Unit
Tippy Tap
We’ve seen a 24% drop in school absence from diarrhoea after giving schoolchildren somewhere to wash their hands!
